Re: ACR 187 (Gomez) – Support

Dear Assemblymember Gordon:

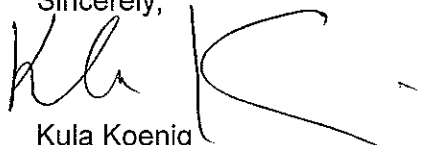

The American Heart Association/American Stroke Association (AHA/ASA) is proud to sponsor ACR 187, which recognizes May as American Stroke Month in California.

The mission of the AHA/ASA is to build lives free of cardiovascular disease and stroke. The organization's work includes initiatives to help prevent, treat, and beat stroke. We urge all Californians to familiarize themselves with the risk factors associated with stroke, to recognize the warning signs and symptoms of stroke, and, at the first signs of a stroke, to dial 9-1-1 immediately in order to begin to reduce the devastating effects of strokes on our population.

Stroke is a leading cause of serious long-term disability and the fifth leading cause of death in the United States, killing approximately 130,000 people nationwide and over 13,500 citizens of California each year. In addition to the loss of lives, total annual direct stroke-related medical costs are expected to increase from \$71.55 billion to \$184.13 billion between 2012 and 2030.

American Stroke Month in California brings awareness about stroke to the populations most vulnerable. Thank you for recognizing May as American Stroke Month in California and alerting Californians to the effects of stroke. Together, we have the power to end stroke by educating all Americans that stroke is largely preventable, treatable and beatable. We are proud to sponsor ACR 187. If you have any questions, please contact me at 916-446-6505, or by email at kula.koenig@heart.org.

Sincerely,

Kula Koenig
