April 23, 2019

Assembly Concurrent Resolution No. 74—Relative to Asian and Pacific Islander American Heritage Month.

LEGISLATIVE COUNSEL’S DIGEST

ACR 74, as introduced, Kalra. Asian and Pacific Islander American Heritage Month.

This measure would recognize May 2019 as Asian and Pacific Islander American Heritage Month.

Fiscal committee: no.

- 1 WHEREAS, One of the earliest records of Asian and Pacific
2 Islander Americans in the United States dates back to 1763 in New
3 Orleans, Louisiana, where Filipino sailors who worked the
4 Manila-Acapulco trade route settled; and
5 WHEREAS, Asian and Pacific Islander Americans have made
6 indelible contributions to the history of California and the United
7 States that include, but are not limited to, building the
8 Transcontinental Railroad, serving honorably in the Armed Forces,
9 fighting for the United States in foreign wars, coorganizing the
10 Delano Grape Strike, and advocating for civil rights; and

1 WHEREAS, Asian and Pacific Islander Americans have endured
2 hardships, including unjust working conditions, prejudice, and
3 discrimination in some of the darkest times in our state's and
4 nation's history, including the Chinese Exclusion Act, naturalized
5 citizenship ineligibility, the Alien Land Law, antimiscegenation
6 laws, and Japanese internment; and

7 WHEREAS, Asian and Pacific Islander Americans continue to
8 cultivate, advance, and lead in the fields of art, fashion, business,
9 technology, education, science, government, law, humanities,
10 medicine, sports, and entertainment; and

11 WHEREAS, California is home to over 6.3 million Asian and
12 Pacific Islander Americans, more than any other state, and Asian
13 and Pacific Islander Americans are one of the fastest growing
14 ethnic populations in the state and nation; and

15 WHEREAS, Asian and Pacific Islander Americans constitute
16 16 percent of California's population and represent diverse
17 ancestries that include, but are not limited to, Indian, Bangladeshi,
18 Bhutanese, Burmese, Cambodian, Chamorro, Chinese, Taiwanese,
19 Filipino, Hmong, Indonesian, Iu-Mien, Iwo Jiman, Guamanian,
20 Japanese, Korean, Laotian, Malaysian, Maldivian, Mongolian,
21 Nepalese, Native Hawaiian, Vietnamese, Okinawan, Pakistani,
22 Samoan, Singaporean, Sri Lankan, Thai, Tongan, and other Pacific
23 Islander; and

24 WHEREAS, California's Asian and Pacific Islander American
25 entrepreneurs are innovative and lead many successful businesses
26 to the pinnacle of their respective industries nationally and globally,
27 and 31.5 percent of the nation's Asian-own businesses are in
28 California; and

29 WHEREAS, The California Commission on Asian and Pacific
30 Islander American Affairs was established in 2004 and is charged
31 with advising the Governor, the Legislature, and state agencies on
32 issues relating to the social and economic development, rights,
33 and interests of California's Asian and Pacific Islander American
34 communities; and

35 WHEREAS, The California Joint Asian and Pacific Islander
36 Legislative Caucus, a caucus of State Assembly Members and
37 Senators, is composed of 16 members during this session and
38 represents and advocates for the interests of the diverse Asian and
39 Pacific Islander American communities; and

1 WHEREAS, Federal law designates May as “Asian/Pacific
2 American Heritage Month” in Section 102 of Title 36 of the United
3 States Code; and

4 WHEREAS, Celebrating Asian and Pacific Islander Heritage
5 Month provides Californians with an opportunity to recognize the
6 achievements, contributions, and history of Asian and Pacific
7 Islander Americans; now, therefore, be it

8 *Resolved by the Assembly of the State of California, the Senate*
9 *thereof concurring*, That the Legislature commends Asian and
10 Pacific Islander Americans for their notable accomplishments and
11 contributions to California, and recognizes May 2019 as Asian
12 and Pacific Islander American Heritage Month; and be it further

13 *Resolved*, That the Chief Clerk of the Assembly transmit copies
14 of this resolution to the author for appropriate distribution.

Date of Hearing: May 6, 2019

ASSEMBLY COMMITTEE ON RULES
Ken Cooley, Chair
ACR 74 (Kalra) – As Introduced April 23, 2019

SUBJECT: Asian and Pacific Islander American Heritage Month.

SUMMARY: Recognizes May 2019 as Asian and Pacific Islander American Heritage Month and commends Asian and Pacific Islander Americans for their notable accomplishments and contributions to California. Specifically, **this resolution** makes the following legislative findings:

- 1) California is home to over 6.3 million Asian and Pacific Islander Americans, more than any other state, and Asian and Pacific Islander Americans are one of the fastest growing ethnic populations in the state and the nation.
- 2) Asian and Pacific Islander Americans have endured hardships, including unjust working conditions, prejudice, and discrimination in some of the darkest times in our state's and nation's history, including the Chinese Exclusion Act, naturalized citizenship ineligibility, the Alien Land Law, anti-miscegenation laws, and Japanese internment.
- 3) Asian and Pacific Islander Americans continue to cultivate, advance, and lead in the fields of art, fashion, business, technology, education, science, government, law, humanities, medicine, sports, and entertainment.
- 4) The California Commission on Asian and Pacific Islander American Affairs was established in 2004 and is charged with advising the Governor, the Legislature, and state agencies on issues relating to the social and economic development, rights, and interests of California's Asian and Pacific Islander American communities.
- 5) The California Joint Asian and Pacific Islander Legislative Caucus, a caucus of State Assembly Members and Senators, is composed of 16 Members during this session and represents and advocates for the interests of the diverse Asian and Pacific Islander American communities.

Assembly Concurrent Resolution

No. 75

Introduced by Assembly Members Obernolte and Patterson

April 24, 2019

Assembly Concurrent Resolution No. 75—Relative to Lyme Disease Awareness Month.

LEGISLATIVE COUNSEL’S DIGEST

ACR 75, as introduced, Obernolte. Lyme Disease Awareness Month.
This measure would proclaim the month of May 2019 as Lyme Disease Awareness Month.

Fiscal committee: no.

- 1 WHEREAS, Lyme disease is an often misunderstood illness
2 that can cause serious health problems if it is not caught early and
3 properly treated; and
4 WHEREAS, Lyme disease is a bacterial infection caused by the
5 spirochete *Borrelia burgdorferi* and is primarily transmitted by the
6 bite of an infected tick. The disease was first identified in North
7 America in the 1970s in Lyme, Connecticut, for which it was
8 named, and since that time, the disease has since been found in all
9 50 states in the United States. The reach of Lyme disease is global,
10 having been reported in more than 60 countries on six continents
11 and several islands; and
12 WHEREAS, Lyme disease is a complex, multisystem illness.
13 Early signs of infection may include rash and flu-like symptoms,
14 including fever, muscle aches, headaches, and fatigue. Usually,
15 the disease responds well to prompt treatment with appropriate
16 antibiotics. If untreated or inadequately treated, however, Lyme

1 disease can invade multiple organs of the body, including the brain
2 and nervous system. In those instances, patients can become
3 increasingly disabled over time, suffering crippling muscle and
4 joint pain, neurological impairment, psychological disorders, and
5 a host of other symptoms that can lead to financial hardship, job
6 loss, broken families, increased numbers of people on disability
7 or welfare, and even death; and

8 WHEREAS, Since there is no reliable form of testing that can
9 accurately pinpoint Lyme disease, getting a proper diagnosis and
10 prompt treatment is often extremely difficult; and

11 WHEREAS, Patients with Lyme disease are frequently
12 misdiagnosed with chronic fatigue syndrome, fibromyalgia,
13 multiple sclerosis, and various psychiatric illnesses, including
14 depression. Misdiagnosis of these other diseases often delays the
15 correct diagnosis and treatment, while the underlying infection
16 progresses; and

17 WHEREAS, Lyme disease affects people of all ages but is most
18 common in children and older adults, and in people who spend
19 time outdoors in wooded, grassy areas, including park rangers and
20 firefighters; and

21 WHEREAS, According to the Centers for Disease Control and
22 Prevention (CDC) statistics, an average of 30,000 new cases of
23 Lyme disease are reported in the United States each year. The
24 CDC, however, estimates that more than 90 percent of Lyme
25 disease cases are not reported, suggesting a total of approximately
26 330,000 cases a year. This total is about 1.5 times the number of
27 women diagnosed with breast cancer and six times the number of
28 new HIV/AIDS cases per year. Up to 40 percent of Lyme disease
29 cases result in long-term health problems, suggesting approximately
30 132,000 patients annually; and

31 WHEREAS, Ticks have three life stages: larval, nymphal, and
32 adult. Both nymphs and adults can transmit diseases to humans.
33 Ticks attach themselves to host animals such as deer, rodents, and
34 birds, and as the host animals migrate to new areas, so do the ticks.
35 Most people who contract Lyme disease get it from the bite of a
36 nymphal tick and because nymphs are as small as poppy seeds and
37 their bite is painless, many people do not notice or remove them.
38 The longer a tick is attached to the body, the more likely it will
39 transmit whatever diseases it carries; and

1 WHEREAS, In California, the Lyme disease bacterium is
2 transmitted by the western blacklegged tick (*Ixodes pacificus*).
3 Ticks are active year round, especially when it is wet. Thus, this
4 tick is most common in the coastal regions and along the western
5 slope of the Sierra Nevada range, but has been found in 56 of
6 California's 58 counties; and

7 WHEREAS, In some areas of California, Lyme disease infection
8 rates of nymphal ticks have been found to be as high as 42 percent.
9 Thus, the infection rate in certain regions of California is among
10 the highest in the entire United States. However, since some areas
11 of the state have not been tested for tick infection, the true scope
12 of the problem is not known; and

13 WHEREAS, Although Lyme disease is the most common
14 vectorborne infection in the United States, the ticks that spread
15 Lyme disease can also spread other diseases at the same time.
16 Among these coinfections are diseases such as babesiosis,
17 anaplasmosis, and ehrlichiosis. The presence of coinfections can
18 complicate the treatment of Lyme disease; and

19 WHEREAS, Recently, three new borrelial species belonging to
20 the Lyme disease spirochetal complex have been described, thus
21 increasing the number of these bacteria known to occur in
22 California to five and making California the locus of more distinct
23 borrelia species than any other geographical region in the United
24 States; and

25 WHEREAS, The Legislature finds that this disease presents a
26 health threat to Californians; now, therefore, be it

27 *Resolved by the Assembly of the State of California, the Senate*
28 *thereof concurring*, That the Legislature hereby proclaims the
29 month of May 2019 as Lyme Disease Awareness Month; and be
30 it further

31 *Resolved*, That the Chief Clerk of the Assembly transmit copies
32 of this resolution to the author for appropriate distribution.

Assembly Concurrent Resolution

No. 76

Introduced by Assembly Member Smith
(Coauthor: Senator Wilk)

April 24, 2019

Assembly Concurrent Resolution No. 76—Relative to Diffuse Intrinsic Pontine Glioma Awareness Day.

LEGISLATIVE COUNSEL’S DIGEST

ACR 76, as introduced, Smith. Diffuse Intrinsic Pontine Glioma Awareness Day.

This measure would designate May 17, 2019, as Diffuse Intrinsic Pontine Glioma Awareness Day to honor those who work to make research and resources a reality for children suffering from Diffuse Intrinsic Pontine Glioma and their families.

Fiscal committee: no.

- 1 WHEREAS, Diffuse intrinsic pontine glioma (DIPG) is a
- 2 malignant brain tumor that affects the brain stem. DIPG is almost
- 3 exclusively a pediatric disease, and it is usually diagnosed between
- 4 five and nine years of age; and
- 5 WHEREAS, DIPG affects 200 to 400 children in the United
- 6 States each year; and
- 7 WHEREAS, Brain tumors are the leading cause of cancer-related
- 8 death in children; and
- 9 WHEREAS, DIPG is the second most common malignant brain
- 10 tumor of childhood; and
- 11 WHEREAS, Children diagnosed with DIPG have a survival
- 12 time of only nine months; and

1 WHEREAS, The Legislature recognizes that the quality and
2 character of life in the communities across the State of California
3 are reflective of the concerned and dedicated efforts of those
4 organizations and individuals that are devoted to the welfare of
5 the community and its citizenry; and

6 WHEREAS, In this regard, the Legislature commends the efforts
7 of the Jack's Angels Foundation and other similar foundations for
8 their continuing efforts to raise awareness of, and fight against,
9 malignant brain tumors; and

10 WHEREAS, James-William "Jack" Demeter, the namesake of
11 the Jack's Angels Foundation, lost the fight against DIPG at three
12 years of age; and

13 WHEREAS, According to Dr. Sabine Mueller of the University
14 of California at San Francisco, DIPG is one of the worst diagnoses
15 a patient and the patient's family can face. Progress has been
16 hampered by the perceived risk of biopsy of these tumors. To date,
17 no therapy has been shown to be effective and children with DIPG
18 are often treated on early phase 1 clinical trials with a
19 trial-and-error approach; and

20 WHEREAS, The Jack's Angels Foundation is a nonprofit
21 corporation that established a DIPG research fund at the Children's
22 Hospital Los Angeles in 2013. The foundation is committed to
23 promoting the most innovative research and clinical trials to help
24 shed light on the nature of DIPG and the genetic anomalies that
25 cause it. In order that there be greater hope for survival, the
26 foundation also actively researches cures for DIPG through medical
27 trials and scientific research; and

28 WHEREAS, The mission of the Jack's Angels Foundation is
29 also to support the quality of life for patients diagnosed with DIPG
30 and their families; and

31 WHEREAS, The mission of the Jack's Angels Foundation also
32 includes increasing public awareness and understanding of DIPG,
33 potentially increasing the protocol for pediatric brain tumor
34 research, and increasing investment by pharmaceutical companies
35 in research pertaining to DIPG; and

36 WHEREAS, It is the intent of the Legislature to call attention
37 to organizations, like the Jack's Angels Foundation, that serve to
38 bring people together for the united purpose of actively pursuing
39 improvements in their communities; now, therefore, be it

1 *Resolved by the Assembly of the State of California, the Senate*
2 *thereof concurring*, That the Legislature pause in its deliberations
3 to honor those who raise awareness of, and fight against, malignant
4 brain tumors, including DIPG; and be it further

5 *Resolved*, That the Legislature hereby declares May 17, 2019,
6 as Diffuse Intrinsic Pontine Glioma Awareness Day to honor those
7 who work to make research and resources a reality for children
8 suffering from DIPG and their families; and be it further

9 *Resolved*, That the Chief Clerk of the Assembly transmit copies
10 of this resolution to the author for appropriate distribution.

AMENDED IN ASSEMBLY MAY 2, 2019

CALIFORNIA LEGISLATURE—2019–20 REGULAR SESSION

Assembly Concurrent Resolution

No. 80

Introduced by Assembly Member Levine

April 29, 2019

Assembly Concurrent Resolution No. 80—Relative to Infrastructure Week.

LEGISLATIVE COUNSEL’S DIGEST

ACR 80, as amended, Levine. Infrastructure Week.

This measure would recognize the week of May 13, 2019, to May ~~21~~, 20, 2019, inclusive, as Infrastructure Week, and would urge the citizens of California to join in this special observance with appropriate events and commemorations.

Fiscal committee: no.

- 1 WHEREAS, The week of May 13, 2019, to May ~~21~~, 20, 2019,
- 2 inclusive, is observed in California and nationally as Infrastructure
- 3 Week; and
- 4 WHEREAS, The residents of California rely on critical
- 5 infrastructure, including our roads and bridges, our railroads and
- 6 transit systems, our ports and airports, our pipes and water system,
- 7 our reliable power supply, our access to broadband, and our
- 8 connectivity to the regional, national, and global economy; and
- 9 WHEREAS, This infrastructure enhances our local and regional
- 10 economy, our quality of life, our safety, and the strength of our
- 11 communities; and
- 12 WHEREAS, Decades of underfunding and deferred maintenance
- 13 have pushed infrastructure to the brink of a national crisis, with

1 preventable catastrophic failures, including derailments and
2 collapses, occurring as a result; and

3 WHEREAS, The United States of America risks compromising
4 its competitive advantage ~~to~~ *over* foreign economies by failing to
5 invest adequately in its infrastructure; and

6 WHEREAS, Americans are waiting in traffic, wasting time and
7 money because of our poor infrastructure; and

8 WHEREAS, Every dollar invested in infrastructure generates
9 nearly two dollars (\$2) in economic output; and

10 WHEREAS, To grow our economy, keep Americans safe, and
11 strengthen communities, we need all levels of government and the
12 private sector to work together to rebuild and repair our nation's
13 critical infrastructure; and

14 WHEREAS, Infrastructure Week 2019 has been established to
15 highlight infrastructure investment needs, and to recognize and
16 encourage leadership at the federal, state, and local levels; and

17 WHEREAS, Infrastructure Week challenges policymakers and
18 the public to address the challenges facing the United States'
19 infrastructure, to move beyond short-term fixes and deferred
20 maintenance, and to envision the innovative solutions, technologies,
21 policies, and investments that will improve America's infrastructure
22 future; now, therefore, be it

23 *Resolved by the Assembly of the State of California, the Senate*
24 *thereof concurring*, That the Legislature recognizes the week of
25 May 13, 2019, to May ~~21~~, 20, 2019, as Infrastructure Week, and
26 urges the citizens of California to join in this special observance
27 with appropriate events and commemorations; and be it further

28 *Resolved*, That despite fiscal challenges, it is important for
29 California to dedicate sufficient resources to transportation and
30 infrastructure investments in our community; and be it further

31 *Resolved*, That the Chief Clerk of the Assembly transmit copies
32 of this resolution to the author for appropriate distribution.

The Honorable Ken Cooley, Chair
California State Assembly Committee on Rules
State Capitol, Room 3016
Sacramento, CA 95814

SUBJECT: Support for Assembly Concurrent Resolution 80

Dear Assembly Member Cooley:

The American Society of Civil Engineers, Region 9 (California), is pleased to support Assembly Concurrent Resolution 80 that recognizes May 13, 2019 – May 20, 2019 as Infrastructure Week.

Since ASCE first began evaluating the Nation's infrastructure conditions in 1998, the overall grade has fallen from a C to a D+. Worse, the total cost from 2016 to 2025 to upgrade our vital infrastructure systems from their current D+ to a B has risen to \$4.59 trillion.

In 2012, ASCE gave California infrastructure a passing "C", but you know only too well that our vital systems have deteriorated since then.

ACR 80 will remind members of the Legislature and administration of the vital need to make infrastructure investments a priority and ASCE thanks you for your consideration.

Please do not hesitate to contact me in the event I can provide additional information about Region 9's position or other matters related to the practice of civil engineering.

Sincerely,

Kwame A. Agyare, P.E., ENV SP, M. ASCE
AMERICAN SOCIETY OF CIVIL ENGINEERS – REGION 9
Region 9 Director

House Resolution

No. 32

Introduced by Assembly Member Mullin

May 1, 2019

House Resolution No. 32—Relative to Tardive Dyskinesia Awareness Week.

1 WHEREAS, Many people with serious, chronic mental illness,
2 such as schizophrenia and other schizoaffective disorders, bipolar
3 disorder, or severe depression, require treatment with medications
4 that work as dopamine receptor blocking agents (DRBAs),
5 including antipsychotics; and

6 WHEREAS, While ongoing treatment with these medications
7 can be very helpful, and even lifesaving, for many people, it can
8 also lead to Tardive Dyskinesia (TD); and

9 WHEREAS, Many people who have gastrointestinal disorders,
10 including gastroparesis, nausea, and vomiting, also require
11 treatment with DRBAs; and

12 WHEREAS, Treatment of gastrointestinal disorders with DRBAs
13 can be very helpful, but for many patients can lead to TD; and

14 WHEREAS, TD is a movement disorder that is characterized
15 by random, involuntary, and uncontrolled movements of different
16 muscles in the face, trunk, and extremities. In some cases, people
17 may experience movement of the arms, legs, fingers, and toes. In
18 some cases, it may affect the tongue, lips, and jaw. In other cases,
19 symptoms may include swaying movements of the trunk or hips
20 and may impact the muscles associated with walking, speech,
21 eating, and breathing; and

22 WHEREAS, TD can develop months, years, or decades after a
23 person starts taking DRBAs, and even after they have discontinued

1 use of those medications. Not everyone who takes a DRBA
2 develops TD, but if it develops it is often permanent; and

3 WHEREAS, Common risk factors for TD include advanced age
4 and alcoholism or other substance abuse disorders. Postmenopausal
5 women and people with a mood disorder are also at higher risk of
6 developing TD; and

7 WHEREAS, A person is at higher risk for TD after taking
8 DRBAs for three months or longer, but the longer the person is
9 on these medications, the higher the risk of developing TD; and

10 WHEREAS, Studies suggest that the overall risk of developing
11 TD following prolonged exposure to DRBAs is between 10 and
12 30 percent; and

13 WHEREAS, It is estimated that over 60,000 Californians suffer
14 from TD; and

15 WHEREAS, Years of difficult and challenging research have
16 resulted in recent scientific breakthroughs, with two new treatments
17 for TD approved by the United States Food and Drug
18 Administration. TD is often unrecognized and patients suffering
19 from the illness are commonly misdiagnosed. Regular screening
20 for TD in patients taking DRBA medications is recommended by
21 the American Psychiatric Association (APA); and

22 WHEREAS, Patients who take DRBAs should be regularly
23 evaluated by their health care providers to ensure that any signs
24 of TD are recognized. Health care providers should use a rating
25 scale recommended by the APA; and

26 WHEREAS, Patients suffering from TD often suffer
27 embarrassment due to abnormal and involuntary movements, which
28 leads them to withdraw from society and increasingly isolate
29 themselves as the disease progresses; and

30 WHEREAS, The caregivers of patients with TD face many
31 challenges and are often responsible for the overall care of the TD
32 patient; now, therefore, be it

33 *Resolved by the Assembly of the State of California, That the*
34 *Assembly proclaims the week of May 6, 2019, as Tardive*
35 *Dyskinesia Awareness Week, with the goal of raising awareness*
36 *of this potentially debilitating disease; and be it further*

37 *Resolved, That the Chief Clerk of the Assembly transmit copies*
38 *of this resolution to the author for appropriate distribution.*

O

Date of Hearing: May 6, 2019

ASSEMBLY COMMITTEE ON RULES
Ken Cooley, Chair
HR 32 (Mullin) – As Introduced May 1, 2019

SUBJECT: Tardive Dyskinesia Awareness Week.

SUMMARY: Proclaims the week of May 6, 2019, as Tardive Dyskinesia Awareness Week to raise awareness of this potentially debilitating disease. Specifically, **this resolution** makes the following legislative findings:

- 1) Many people with serious, chronic mental illness, bipolar disorder, or severe depression, require treatment with medications that work as dopamine receptor blocking agents (DRBAs), including antipsychotics. While ongoing treatment with these medications can be very helpful, and even lifesaving, for many people, it can also lead to Tardive Dyskinesia (TD).
- 2) TD is a movement disorder that is characterized by random, involuntary, and uncontrolled movements of different muscles in the face, trunk, and extremities. In some cases, people may experience movement of the arms, legs, fingers, and toes. In some cases, it may affect the tongue, lips, and jaw. In other cases, symptoms may include swaying movements of the trunk or hips and may impact the muscles associated with walking, speech, eating, and breathing.
- 3) TD can develop months, years, or decades after a person starts taking DRBAs, and even after they have discontinued use of those medications. Not everyone who takes a DRBA develops TD, but if it develops it is often permanent.
- 4) Common risk factors for TD include advanced age and alcoholism or other substance abuse disorders. Postmenopausal women and people with a mood disorder or a family history of mood disorders are also at higher risk of developing TD.
- 5) A person is at higher risk for TD after taking DRBAs for three months or longer, and studies suggest that the overall risk of developing TD following prolonged exposure to DRBAs is between 10 and 30 percent.
- 6) Years of difficult and challenging research have resulted in recent scientific breakthroughs, with two new treatments for TD approved by the United States Food and Drug Administration. TD is often unrecognized and patients suffering from the illness are commonly misdiagnosed. Regular screening for TD in patients taking DRBA medications is recommended by the American Psychiatric Association (APA).
- 7) Patients who take DRBAs should be regularly evaluated by their health care providers to ensure that any signs of TD are recognized. Health care providers should use a rating scale recommended by the APA.
