ASSEMBLY COMMITTEE ON RULES
Richard Gordon, Chair
SCR 13 (Jackson) – As Amended January 29, 2015

SENATE VOTE: 34-0

SUBJECT: American Heart Month and Wear Red Day in California.

SUMMARY: Recognizes the month of February 2015 as American Heart Month in California and February 6, 2015, as Wear Red Day in California in order to raise awareness of the importance of the ongoing fight against heart disease and stroke. Specifically, **this resolution** makes the following legislative findings:

- 1) Heart disease is the number one killer of women, yet 80 percent of cardiac events can be prevented; and 90 percent of women have one or more risk factors for developing heart disease, yet only one in five American women believe that heart disease is her greatest health threat.
- 2) Cardiovascular disease is the cause of death of one in three women who die each year, approximately one woman every minute; and women are less likely to call 911 for themselves when experiencing symptoms of a heart attack than they are if someone else were having a heart attack.
- 3) An estimated 44 million women in the United States are affected by cardiovascular disease; and since 1984, more women than men have died each year from heart disease.
- 4) The American Heart Association is celebrating February 2015 as American Heart Month and promoting education and awareness by encouraging citizens to learn the warning signs of heart attack and stroke.
- 5) Women involved with the American Heart Association's Go Red For Women movement live healthier lives. Nearly 90 percent have made at least one healthy behavior change.
